Details of Teachers' Training

All the teaching faculty members attended training organized by VEENA VADINI TEACHERS TRAINING INSTITUTE.

Academic Achievement

Education is not only the learning of facts but also the training of mind. The objective of our institution is to impart to the students a sound education which includes not only of the training of the mind, but also of character formation, promoting leadership and initiative to prepare them to shoulder responsibility maintaining a high standard of honour and probity in private and public life. Excellence in academics is the united hard work of any institution. The New Academic Year began on 1st April, 2020. The year 2020-2021, with the outbreak of COVID 19, brought us new challenges. A new learning platform had to be introduced; the online learning. The staff was instructed, trained and guided to equip themselves to this new teaching learning process. The school immediately got connected with *Youthconnect*, (developers of websites and software) which helped in planning the whole year's academic activities successfully. There were regular online classes conducted through Google Meet for the Primary classes and Zoom for the High School, following a regular timetable. The teachers were available even after the school hours, clearing the students' doubts. The joined effort of the students, parents and teachers helped a lot in getting the students engaged in active learning, reducing the learning gap. Some students were not able to make use of this due lack of gadgets, network etc. The teachers tried to reach out to them through phone calls and got some of the students connected back to studies. After the lock down period, the teachers came to school once a week to discuss, plan and prepare the lessons for the upcoming week. This helped the teachers learn from each other and be more effective in their online classrooms.

Efforts made in the field of Environment Education

The school gives due importance to the environmental education and protection of the nature and the Mother Earth. It holds high the motto "the existence of the environment is the basis for the survival of human life." The world Environment Day on June 5th is celebrated emphasizing its importance. The students and the staff plant small plants in the school and at their homes. Various activities like workshops, seminars, field trips, interactive programs etc are arranged with the help of environmental activists. The students are taught not to waste papers, save water, electricity and other natural resources through various activities and exercises. The school focuses on a campus with 'zero plastic'. The school has an Eco Club where the students along with their teachers plan various programs based on the protection of the entire cosmos. The school follows segregation of waste into two separate pits. Children are aware of the importance of rainwater harvesting system by realizing the days when there would be no water even to buy.

Sports and Achievements

Sports support students to develop mental and physical toughness. The school provided a various opportunity for the students to perform regular exercises, yoga and to prove their talents in different sports and games. In this session a Chess Competition was conducted for classes 5th to 9th. Yoga classes are conducted separately which enabled the students to reduce their stress during the lockdown situation of the pandemic.

PTA Activities

Parent Teacher association is strong. It helps a lot in the overall growth and development of the school. The vigilance of the PTA members in the matters of the school, both academic and non-academic, is certainly one that is responsible for the upliftment of the school.

Important SMC Decisions

Decided to collect only the tuition fee from the students.

Finalized the new appointments of PRTs and TGTs.

Decided to conduct 4 PTs and 2 term end examinations.

Decided to reopen the school on 21st June.

Decided to celebrate various occasions like Children's Day, Teachers' day, Independence Day And Republic Day online.

Planned for Teachers' Orientation and other workshops for the teaching faculty.

Decided to conduct a seminar for the parents on 'parenting during the pandemic.'

Decided to conduct seminars and various online activities for the students of senior classes.
